**4.1 Travis Way, Public Works Superintendent** There is a sewer line attached to the bridge on Mill Street that needs to be repaired/replaced. The County and ODOT told Travis in order to have the line attached to the bridge there would have to be an engineered line installed. An email from Anderson Engineering states the cost of designing the line would be \$4800.00 and they would help to obtain a contractor and oversee the construction. There are two different options they mentioned and are willing to discuss with the City. The amount does not cover construction or parts, it is design only. Table for more information.

**4.2 Mayor's Review** Craig asked Travis about the fire hydrant that's not working on John Street. Travis stated the last time he messed with it the hydrant was working fine. There are a few hydrants in town that aren't working or need work done to them. Craig will get with others from the fire department to test and mark the hydrants throughout town. Travis would like to have the repair and replacement work put out for bid.

Craig reminded everyone of the Road Advisory meeting on Thursday here at the Community Center at 9:30 am.

**4.3 Public Appearances** The grand opening for the library will be Saturday from 1 pm to 3 pm at 723 Chewaucan Street, the ICFC building.

The blocked alleyways and roadways were discussed. The Sheriff's Office has tried to make contact with the home owners but hasn't been able to speak with anyone yet. They have taken pictures and will continue to pursue the issue.

If there is a problem in town, speeding, dogs, etc., call dispatch or 911 now rather than later. They need to be aware of the problem when it happens not a few hours or days down the road.

Working on stop signs and will be moving the "library" marker.
