2.0 EXECUTIVE SESSION

3.0 BUSINESS

3.1 Vector Control, Bruce Gibbons Bruce had some questions and concerns for Council. He is concerned about using the old pickup for spraying. It has malathion all over it and it smells strongly. He wonders about the feasibility of moving the fogger to another pickup but doesn't want to place the old fogger in his own personal rig. Travis stated the old blue and white pickup is still usable and should be fine for carrying the fogger. Bruce had heard that the City had discussed a smaller portable fogger at one time. If a new one was bought he wouldn't object to throwing that one in the back of his own personal rig. He also asked how the scheduling worked; was it a set schedule or did they go spray after receiving complaints? Dale stated in the past they sprayed as they could, depending on need, weather, etc. Spraying private property along with public was also discussed. Melissa stated the licensing the City pays for was to spray public property and a different license is needed to spray private. The amount of pay was also discussed. It was suggested paying \$1000 per month for four months. Maintenance of machinery, including winterizing and annual calibration, along with researching materials would be a part of the job. Bruce is going to do some research on sprayers. No decisions were made, just discussion. The vector control job will be on the agenda for the April 21, 2020 meeting.
