Deer Ordinance

City Council has been approached numerous times concerning the overpopulation and aggressive actions of the town deer. There has been discussion of creating an urban deer control ordinance that would allow harvesting excess does. We've been told this is the only way of controlling the number of deer within City limits. This would allow agents to be appointed to harvest the deer during a set time period. The state would require the ordinance include that no one can feed the deer and that there would be consequences if caught doing so. This proposal is a year or more away from implementation contingent upon the community and several branches of state government reaching an agreement.

Council would like your opinion; would you be in agreement or opposed to the City appointing an agent(s) to harvest a set number of deer within City limits? There will be a sheet hanging in the post office and another at City Hall for people to sign that are **opposed** to this proposal. It's very important that we determine what percentage of our population is opposed to the ordinance. Please make sure your information is legible and that you sign your name. If you are in agreement with harvesting the deer, do not sign the sheet.

You are welcome to call City Hall with any questions or concerns. We are open Tuesdays, Wednesdays and Thursdays from 8 am to 2 pm.
